3. Educational Exhibits - Our resources and personnel for the design and construction of educational exhibits were organized and utilized effectively in the past year. Of special importance was the completion the Intelligence Processes Exhibit Room in Alcott Hall for the Intelligence School and the Intelligence Products Exhibit in the R&S Auditorium for the Basic School.

4. Bibliographic Services - The number and quality of bibliographies prepared by the Library Staff as research tools for the instructional staffs increased during the year. We feel that the special bibliographies and the "Instructors' Guide to Current References" reflected a much better understanding of the research needs of instructors than before.

5. Preventive Maintenance of Electronic Equipment - We acquired the personnel and established a routine maintenance program of electronic equipment in OTR. Its benefits are obvious.
